## **HYPERFUELS SELECTED AS THE OFFICIAL FUEL PROVIDER FOR THE 2009 VOLKSWAGEN JETTA TDI CUP SERIES**

### ***B5 biodiesel to power the 2009 Volkswagen Jetta TDI Cup race cars***

(HOUSTON, TX) February 2, 2009- HYPERFUELS, a national supplier of high quality race fuels, biodiesel, additives, and lubricants, has been selected as the 2009 Volkswagen Jetta TDI Cup Series Official Fuel sponsor.

The announcement was made as the 2009 Volkswagen Jetta TDI Cup Series begins its driver selection event February 1, 2009 in Sonoma, CA. The nine race series will finish on September 26, 2009 in Braselton, GA. Approximately 3,192 gallons of B5 diesel fuel will be used to fuel the diesel race cars as well as the transport trucks and generators throughout the 2009 Volkswagen Jetta TDI Cup Series.

"We are extremely pleased to have HYPERFUELS as a partner with the Volkswagen Jetta TDI Cup series in 2009. SynDiesel B5 diesel fuel is already fully approved to use in all Volkswagen TDI clean diesel powered vehicles available at local Volkswagen dealerships today," said Clark Campbell, Motorsport Manager of Volkswagen of America, Inc. "The addition of SynDiesel B5 diesel fuel in the Jetta TDI Cup race cars further demonstrates the feasibility of biodiesel as an alternative fuel source for American consumers, and supports the clean and green racing of the Jetta TDI Cup series," added Campbell.

Jess Hewitt, President, Gulf Hydrocarbon, the parent company of HYPERFUELS added, "HYPERFUELS supports the use of biodiesel as a clean diesel racing performance fuel. Coming on as a fuel sponsor on the heels of the clean diesel technology announcement by Volkswagen in 2008 makes this a great honor. If we can help take biodiesel power to the next level then everyone wins. Cleaner burning, more power, less emissions, easy access. I can't imagine a better fuel or better cars to debut the effectiveness of biodiesel in. The 2009 Volkswagen Jetta TDI Cup Series influences young and mature racers who mold the awareness of clean diesel for everyone."

HYPERFUELS is supplying the SynDiesel® B5 synthetically made diesel fuel, with a 63 cetane rating, storage life of up to 10 years and 20% more BTU's than

conventional diesel. The same fuel is now available for purchase on [www.hyperfuels.com](http://www.hyperfuels.com)

## About HYPERFUELS

HYPERFUELS features racing fuels from Sunoco, Shell Racing Solutions and SynDiesel. Fuels can be purchased in individual 5 and 55 gallon pre-sealed drums, race fuel can also run in regular cars and can be stored for up to two years, providing a quick and stable fuel source. Racing oils sold at HYPERFUELS include Royal Purple and Synergyn. Race fuels and oils are available in containers eligible for ground shipping on FedEx and UPS throughout the USA. For more information visit [www.hyperfuels.com](http://www.hyperfuels.com).  
About Volkswagen of America, Inc.

Founded in 1955, Volkswagen of America, Inc. is headquartered in Herndon, Virginia. It is a subsidiary of Volkswagen AG, headquartered in Wolfsburg, Germany. Volkswagen is one of the world's largest producers of passenger cars and Europe's largest automaker. Volkswagen sells the Eos, Rabbit, New Beetle, New Beetle convertible, GTI, Jetta, Jetta SportWagen, GLI, Passat, Passat wagon, CC, Tiguan, Touareg 2 and Routan through approximately 600 independent U.S. dealers. All 2009 Volkswagens come standard-equipped with Electronic Stabilization Program. This is important because the National Highway and Traffic Safety Administration (NHTSA) has called ESC the most effective new vehicle safety technology since the safety belt.
